

## Privacy Settings

Here are instructions for setting your privacy settings in Skype.

1. Click on Skype in the menu bar
2. Click on Preferences...
3. In the window that comes up, click on the Privacy tab.

5. Set all options to “Contacts”. This will only allow your contacts (people you know) to see your information.

6. NEVER set your status to “Skype Me”. This allows everyone in the world to be able to skype you.
